Lessa-nim?

Excuse me, Lessa-nim...?

Please at least tell me the reason you dragged me here.
What am I supposed to do if you just stand there for several minutes?

RUSTLE
Ares.
Yes.
Do you know why you are on this island?
Huh? That's...

SCRATCH
Because I became like this..?
And because... I hurt.... Many other people..
That's correct. You and I have both sinned.

This island was created for our sake.
Out faraway in the ocean...
So that we may not hurt anyone.
I know already.
Why are you suddenly talking about this? That story is already several hundred years old.

We have spent countless days in solitude...
I miss other people...

At least some sightseeing... Please allow me to at least go sightseeing...

Those people's lives are just as important as yours.
Do not make the same mistake again.

I have called you to give you another chance.

Don't you misread. I'm not talking about that.
I don't really get it, but it looks like you have a considerable involved there, your mind.

I'm just curious as to why you're judging out a one of a detestable bastard like me.

Especially since you hold such a grudge against me. To you, you never know when I'll betray you.

Right?
I'm right aren't I?
Why... Why are you right, such things...?

So what exactly is making you help a guy like me? Huh?

It's because I'm not a person who can just pass it unknown what's about to do.
No matter what kind of man you are and what lies you have committed, why should I have cause to disrupt...?

Sin~?!

Finally you show your true colors. What sin? Tell me!

EXACTLY WHAT SIN DID I COMMIT SO THAT YOU TREAT ME LIKE A POTENTIAL CRIMINAL?!!

What...did I...
...I have never treated you as such...
TELL ME EVERYTHING FROM THE VERY BEGINNING!!

YOU'RE JUST IN DENIAL!!

...And that's the problem.

Had I got hit, I would've kicked the bucket.

Odd...
You're usually so docile.
Did you not know?
I have only begun to use my strength, just like you.

BANG!

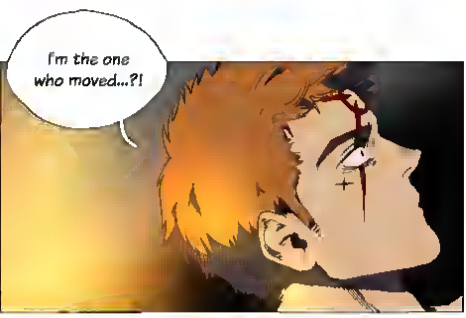
SKIIID

Now that I think about it, back when you saved me and back when you stopped on my face, you seemed to appear out of nowhere.
Who's the heck?

You're using some kind of power that I can't see, aren't you?
Apart from your elemental speed and power, your ability to fight is a mess.

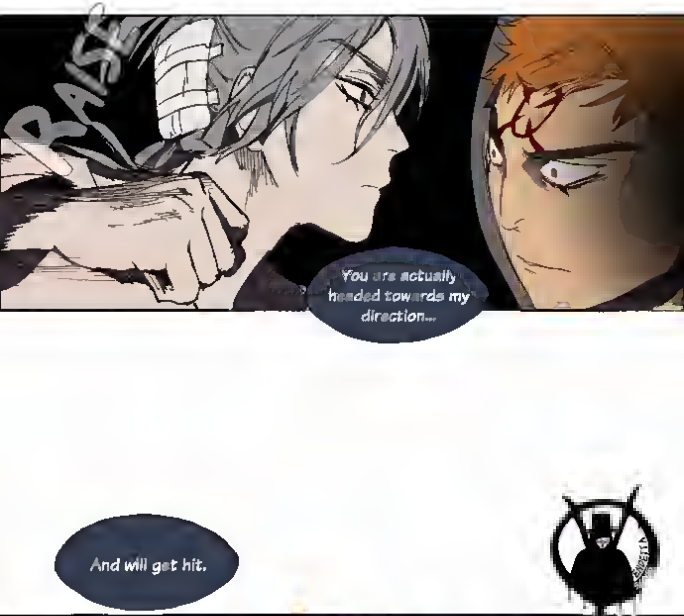
WHISH—
Correct.

Turn around and see who moved.
?
!



NO..
BOTH OF US DID

And among those two, I am one capable of creating darkness.
The notion of assimilation is closest to my own existence.
What on earth...?!
While you stand on the horizon...
I am able to bend the very space around you.
That is my true ability.
Though you may think you're standing still...



RAISE
You are actually headed towards my direction...
And will get hit.

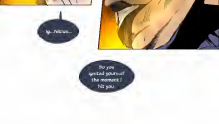
I blocked it.



Ya...Nice...

So you ignited gasoline the moment I hit you.

Right.

If you're going to shorten the distance through exertion, I just need to prepare a counterattack.
If your exertion is exertion - but fate existence is that of ignition. Am I wrong?
RAISE

Lessa. Did you see that ignite just now?

Everything is born from the light.

O Rah, was I born from the light as well?

Of course!

Everything is born from the light!

And I figured out one more thing.

About how Ra's strength was in the form of a gun

There's no way a God would use a gun.

This gun was merely conjured from my own mind.

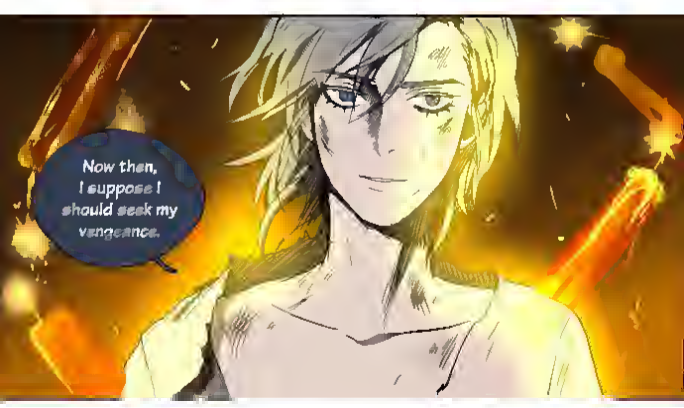
I bet... Ra gave me quite a bit of his strength.

And the key to utilizing his strength...

SWOOSH
Is imagination.

Although this is a little crude.
There's no place for you to assimilate now, is there?

Splendid.



Now then,
I suppose I
should seek my
vengeance.

SPOILER
THE APOLLON
MAKE PUBLIC AGENT
Let me begin
The event will be held a week from now at 7. The location is the HAIS institute of science and technology
Right
There isn't much time left

We must find her before the event begins
Our plan is to retrieve Lucy before she enters the field. We'll have to search for a car they're designed to restrict sunlight.
Either way, the Demons will probably be transported from the outside.
Really? Do you think they're the ones?
The event is a week from now.
The possibility that NIAD has captured the masked Demon alone than somewhere is high.
Especially since they have plenty of Demon as samples for the tentacle already.
Keahun, didn't they already announce about 50 of them were held in captivity?
I'm pretty sure they're already within the field.
But, since we don't have citizenship, we can't possibly enter the field.
Tokening!
Why don't we apply for tokening by volunteering for the event?
From what I know, since this event's goal is fundraising, as long as we have money, we can apply for tokening even without citizenship.
If that's the case, as long as we participate, the field should be open for outsiders like us!
Right... That's right...!

I might be able to hack the site and manipulate the registrations

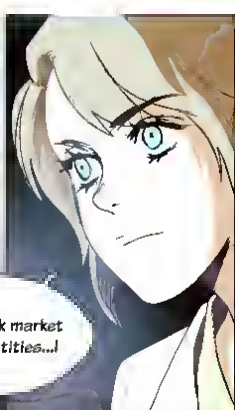
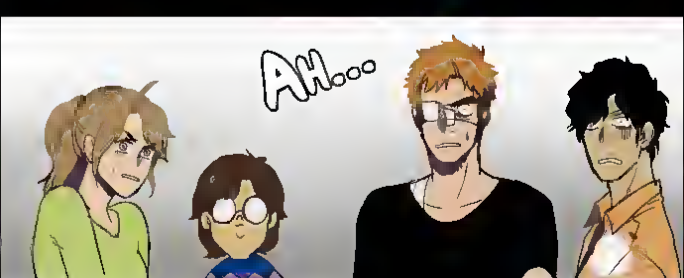
I'll give it a shot— Well... To be honest, it's not that difficult...
Right allow me to tell you this!
Yuzuru here, has even hacked into the American UFO Department of Defense in order to access top secret information!
Who gives a shit!!
SQUEEZE
Wait, isn't that a crime...?
I'm counting on you for this!
TAP



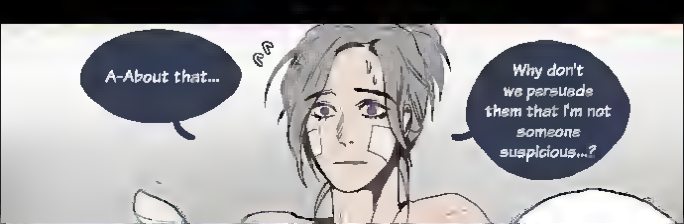
But there's one problem.

About our identities...
I'm a foreigner who came here with a Visa...

And Leesa here is an alien— I mean, not a resident here and has an unknown identity...
It's impossible for us to apply for ticketing.
DA DUM



AHooo



A-About that...
Why don't we persuade them that I'm not someone suspicious...?

Like hell that will work...!
Isn't there a way to solve this problem? Like adopting him or something...
Well yes There is a solution.
To be precise, we can just buy another person's identity.
Buy an identity...?!
H-How the hell do we do that?!
We have to take this guy with us no matter what!
Well, all I need is access to a PC room, and—
Money
There is nothing money can't buy.

I can't believe a site like this even existed How can someone sell their identity?

To be honest, this place is a criminal hotspot.

Most of these identities are from those who are missing yet aren't reported for being missing.

Usually such cases are pretty rare, but...

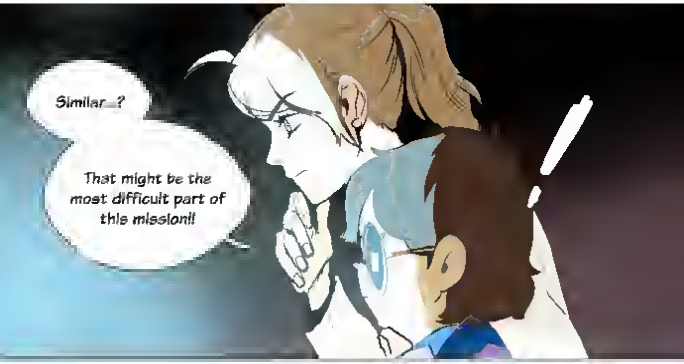
I figured this country would have many of them for sale.

I suppose. I'm sure there are many who are missing due to Deman...

Rather...

Where do you think the identities of the Deman who threw away their humanity goes?

All we need to do now is find someone who looks similar to Lessa and me...



Similar...?
That might be the most difficult part of this mission!!
